Machine of Death - Wikipedia Machine of Death is a 2010 collection of science fiction short stories edited by Ryan North, Matthew Bennardo, and David Malki. The stories featured in Machine of Death were submitted by various writers since early 2007 and all focus on a device which can accurately predict the manner in which the user will eventually die. Machine of Death: A Collection of Stories About People Who ... The machine is never wrong, but often ironic, elliptical or quirky. A prediction of 'old age' might mean a peaceful death after a long life, but might just as well imply that you will be stampeded by a horde of deranged geezers. If such predictions, such Machines of Death, are readily available, would you want to know?.

Machine of Death: The Game of Creative Assassination ... Machine of Death: The Game of Creative Assassination is a storytelling game set in a world in which a machine can predict how a person will die with 100% accuracy with only a small blood sample. However, the machine delights in being vague and twisted. Machine of Death: A Collection of Stories About People Who ... "Machine of Death" is a fiction anthology in a universe where there is a machine that can predict the exact cause of an individual's death. Every short story comes starts an illustration. I haven't enjoyed such a high image/word ratio since I was in elementary school, but this anthology is the exception which changes the rule. Machine of Death: The Game of Creative Assassination by ... Machine of Death stories have been set in the past, present, or future; have featured machines large, small, or in-between; have told stories of the machine's invention, or postulated a world in which the machine is old and forgotten. The game is the same way. It doesn't reference any existing story in particular.
